

Idris D. Roberts

AI/ML Engineer | Software Developer | Business Owner | Operations & Systems Professional
Birmingham, Alabama | LinkedIn: [linkedin.com/in/idris-roberts-61](https://www.linkedin.com/in/idris-roberts-61)

Professional Summary

AI/ML Engineer, software developer, and entrepreneur with experience spanning artificial intelligence, software development, telecommunications, logistics, business ownership, and operations management. Graduate of Oakwood University with a Bachelor of Science in Business Management and a Minor in Finance, and completer of all 18 sprints in the TripleTen AI & Machine Learning Engineering program. Experienced in Python, machine learning, data analysis, prompt engineering, LLM applications, workflow automation, and building technology solutions that solve real-world business problems.

Technical Skills

Python • SQL • JavaScript • Machine Learning • LLMs • Prompt Engineering • RAG • AI Agents • Pandas • NumPy • Data Analysis • API Integration • Git/GitHub • Replit • VS Code • Jupyter Notebook • Operations Management • Financial Analysis • Strategic Planning

Featured Technical Projects

Practical Contracting Solutions Estimating & Proposal Platform

Designed and developed a custom business application that generates industry-standard estimates and professional proposals. Automated pricing calculations, proposal creation, and customer-facing documentation workflows to improve consistency, efficiency, and operational performance.

EchoSurvive – AI-Assisted Horror Game

Designed and developed an AI-assisted game prototype utilizing modular architecture, structured development practices, and iterative AI workflows.

TripleTen AI/ML Projects

Developed machine learning, predictive analytics, and data analysis projects while completing all 18 AI/ML Engineering sprints.

Professional Experience

Practical Contracting Solutions Inc. | Founder & President | Present

Founded and operate a contracting and technology-focused company focused on business process improvement and software-driven solutions. Designed and developed a proprietary estimating and proposal generation platform while leading business strategy, operations, financial oversight, and technology initiatives.

R&L; Carriers | LTL Driver | July 2025 – Present

Manage time-sensitive LTL freight operations while maintaining safety, compliance, and customer service standards. Coordinate route efficiency, delivery scheduling, and operational performance in a fast-paced logistics environment.

Fuel South Express | Fuel Transport Driver | September 2023 – June 2025

Managed hazardous materials transportation under strict DOT and safety requirements while maintaining compliance, reporting accuracy, and operational efficiency.

Civil Trucking LLC | Founder & Operations Manager | 2017 – 2023

Founded and operated a trucking authority managing transportation operations, dispatching,

customer acquisition, compliance, budgeting, route optimization, and strategic business planning.

Bright House Networks / Spectrum | Service Technician | 2010 – 2017

Installed, maintained, and troubleshoot telecommunications and networking infrastructure.

Diagnosed internet, voice, video, and connectivity issues while working with routers, networking equipment, and cabling systems.
